# AS-930 MID-VOLUME ADDRESSING SOLUTION

Easy-to use desktop solution for repetitive mailings

WE VALUE YOUR MAIL

# AS-930

## EASY-TO USE DESKTOP SOLUTION FOR REPETITIVE MAILINGS

Whether for marketing activities or the monthly invoice run, you want your mail to get to your customers in the shortest possible time, with no mistakes. Neopost addressing solutions ensure maximum speed, accuracy and flexibility for all your printing jobs.

Designed for mid-volume users, the Neopost AS-930 feature fixed head technology capable of printing at nearly constant speed regardless of content onto a wide variety of documents such as envelopes, postcards, magazines or newsletters. The AS-930 is perfectly suited for high speed printing or repetitive mail runs, as their secured paper paths and low jam rates provide greater output for better business continuity.

The AS-930 gives you the tools you need to take the blank space of a standard envelope and turn it into a medium for your message. You can maximize its potential, personalizing your message and targeting your audience effectively. Then you can change your message as often as you want to keep things fresh. And you can do it all inhouse, quickly, economically and efficiently.

### TIME-SAVING FLEXIBILITY

The AS-930 ensures maximum speed, accuracy and flexibility for all your printing jobs. Got an unexpected customer offer you need to integrate? No problem - the AS-930 gives you the flexibility to make last-minute changes with ease. Productivity is increased naturally with high printing speeds and high capacity outputs which reduce cycle time. And your customer information is protected with the complete inhouse control of the database.

### ENHANCE COST CONTROL

Printing labels is an expensive and time-consuming business. The AS-930 cuts out the need for buying and stocking labels - and the manpower required to apply them. Blank envelopes are transformed into powerful marketing messages that work hard for your business. With address management software, the duplicate and inaccurate addressing detection feature allows you to reduce return, duplication and unnecessary mail costs, you can produce a higher volume of mail faster.

### WHY CHOOSE NEOPOST?
